80% OF DRIVERS STEAL FOOD FROM ORDERS

CUSTOMERS BLAME THE RESTAURANT

Customers are quick to blame the restaurant for any problem with their order, including if it's missing an item or if the portions seem small due to theft. Even if you aren't hearing about it, it could be harming your reputation.

LABELS JUST AREN'T GETTING THE JOB DONE

Lots of restaurants have used or continue to use labels to seal bags, but this strategy isn't fool proof. Drivers can get around them and many admit to opening and resealing orders.

GIVE YOUR CUSTOMERS PEACE OF MIND

The vast majority of customers, a whopping 85%, want restaurants to use tamper-evident packaging. Give your customers what they want with Handle Cuffs™ Tamper-Evident Bag Seals.

HANDLE CUFFS PROTECT AGAINST THEFT

QUICK

Handle Cuffs can be applied quickly to outgoing orders even in the busy environment that is a working restaurant.

With Handle Cuffs, you never need to stop to reload staples—which could fall into customers' food!

EASY

To apply Handle Cuffs, you place the cuffs over both handles of the bag, remove tape strips, and press to apply.

To remove Handle Cuffs, customers tear the pull strip and then the vertical perfs along the side to free the gusset.

THOROUGH

Stickers and labels only cover a small portion of the bag's opening. People can reach around them and pour food out of the still-exposed mouth of the bag.

Handle Cuffs seal the full length of the bag, warding against theft and tampering.
