WHO WE ARE

AT INNO-PAK, WE THINK DIFFERENTLY.

Where many great companies began in a garage or workshop, our CEO created Inno-Pak at a folding table in his basement. Similarly, while other companies think outside the box, we reinvented the box to perform better, be more sustainable, and customer friendly.

Our way of thinking differently about the needs and challenges of the industries we serve is the source of our innovative spirit. It's how we're able to provide you with the best customer service and the most innovative products whether that's tamper-evident packaging, sustainable solutions for your business, or cost-neutral innovations that enhance customers' experience with your food.

Inside this catalog, you will find products that will help you meet your business's needs. If you don't find a solution that works for you, call us.

WE LOVE A CHALLENGE.

HERE'S THE DIRT ON COMMERCIAL COMPOSTING

GOOD FOR THE EARTH

According to the Biodegradable Products Institute, "composting is a natural process that turns organic materials into a valuable soil amendment."

Composting plays a unique and vital role in sustainability efforts. It diverts organic waste away from landfills and turns them into a product that can help the environment.

BENEFITS OF COMPOST

- Improves soil and water quality
- Can improve crop yields
- Can replace chemical fertilizers
- Reduces methane emissions in the atmosphere
- Helps aid reforestation, wetlands restoration, and habitat revitalization
- Provides carbon sequestration.

TYPES OF COMPOSTING

Commercial composting facilities accelerate the breakdown of organic materials, like those in our commercially compostable packaging.

The two most common types of commercial composting today are windrow and Aerated Static Pile, according to BPI. A third method uses in-vessel, positive aeration, membrane laminate technology.

WHY CHOOSE ROTISSERIE BAGS OVER DOMES?

ROTISSERIE BAGS ARE EASY TO USE, EFFICIENT, AND SAVE YOU MONEY.

Save time and space by switching to Inno-Pak's Rotisserie Bags. These durable bags are warming table and microwave friendly, and take up a fraction of the space a standard dome does.

- A single truckload of Inno-Pak Rotisserie Bags is equal to more than 10 truckloads of domes
- Smaller cases equals lighter cases with a much smaller storage footprint
