# WE ARE INNO-PAK

## FOOD PACKAGING IS A FORCE FOR GOOD

At Inno-Pak, we believe in the power of the food packaging industry to create meaningful, lasting change.

Our mission is to lead by example and empower the food packaging industry to effect positive change by creating innovative, sustainable packaging solutions.

We will work to continuously evolve and innovate the design of food packaging to maximize its end-of-life benefits while minimizing its effects on the planet.

## JOIN US IN MAKING A MORE SUSTAINABLE FUTURE FOR FOOD PACKAGING

# OUR VALUES

At Inno-Pak, our core values drive everything we do. Those values are innovation, people, integrity, responsibility, and adaptability.

### INNOVATION

We look at every package as an opportunity to create a better solution for our customers.

### PEOPLE

Our people are the key to our success with their commitment to collaboration, innovation, and exceptional service.

### INTEGRITY

We are a trusted partner who maintains the utmost attention to ethics and stewardship.

### RESPONSIBILITY

We embrace our obligation to our partners, customers, and the environment.

### ADAPTABILITY

We pride ourselves on our ability to move and adapt quickly to match the pace of change in our industry.

# WE MAKE PACKAGING SOLUTIONS

Inno-Pak was founded on innovation since the day our founder realized that grocery stores needed matched packaging to tie their products together.

To this day, you can see the innovation in our products, processes, and facilities. We're always making new products, testing new designs, and exploring new features.

Our innovative drive includes more than our products, too. We have a 200,000 sq. ft. headquarters and manufacturing facility in Delaware, Ohio. Nearby, distribution centers in Ohio and Nevada, a site dedicated to providing finishing services, and a plant in Canada.

At Inno-Pak, we do more than sell packaging. We work with you to find the right packaging solution for your business.

# TO GO FRESH MATCHED PACKAGING

- ◆ **STAND OUT:** Maximize appeal with this design tested with focus groups
- ◆ **ELEVATE YOUR BRAND:** Matched packaging ties your products together and lifts them up
- ◆ **FLEXIBLE LINEUP:** To Go Fresh includes packaging for grocery, convenience, and foodservice applications
- ◆ **COMMERCIALLY COMPOSTABLE:** CMA-accepted commercially compostable cartons (*Where facilities exist; varies by item*)

# ELEVATE THE PACKAGING EXPERIENCE WITH THE **NEW TO GO FRESH** MATCHED PACKAGING LINE

## TO GO FRESH IS A TESTED, PROVEN DESIGN

We worked with a market research firm to conduct focus groups on matched packaging and folding carton look and functionality. We wanted to understand people's packaging expectations and buying habits, and we wanted to explore their preferences for packaging features, including which substrates, windows, and colors they liked. Lastly, we wanted to gain feedback on various matched packaging designs to see what resonated best. The resulting design is the new To Go Fresh Matched Packaging Line!

## WHY SHOULD STORES UTILIZE MATCHED PACKAGING ON THEIR SHELVES?

- ◆ Packaging improves the brand's impression and creates opportunity
- ◆ A refined look reinforces or enhances the brand image
- ◆ Well thought out packaging makes customers think the food is well thought out too
- ◆ Focus group participants showed increased brand satisfaction
- ◆ Provides consumers opportunity for extra purchases based on "completing" their set of products
- ◆ Packaging that projects as plain or poorly made reflects negatively on the brand and can harm perception

# WHAT THE FOCUS GROUPS SAID

## WHAT CONSUMERS WANT IN A MATCHED PACKAGING DESIGN & HOW TO GO FRESH DELIVERS

- Color, or something that "pops" on the shelf → Use of Greens, Browns, and White "pop" on the various substrates
- Graphics, colors, and wording that are appropriate → Colors are bright but natural, and "To Go Fresh" is to the point
- Packaging that isn't too heavy on the marketing—customers don't want to feel like they're being sold to → Instead of using busy icon patterns or cliched adjectives, we simply state "Fresh" to highlight what matters to the consumer
- Something that looked nice to take to a gathering or party → The To Go Fresh graphics are elegant, on trend, and versatile
- Packaging that felt/looked higher end → Brown kraft cartons are seen as higher end, more natural
- Sturdy packaging that ensures food makes it to its destination → All packaging meets our performance and durability standards
- Windows that make it easy to see the food provided but don't compromise the durability of the packaging → Changed window configuration to maximize protection, allow great visibility, and reinforce food associations with window shapes
- Packaging that is easy to close, open, and use → Added patent pending spine reliefs for easy closing and utilized tuck tops and gable tops on Fresh and Prepared Foods cartons

## WHAT PARTICIPANTS SAID ABOUT THE **NEW TO GO FRESH** MATCHED PACKAGING LINE...

"If I happen to go by the deli or bakery and I see something that's packaged really well, I'm more likely to make an impulse purchase."

"It just looks nice all together."

"It looks like it tastes better."

"If I'm going home and I have people coming over, I would just leave this here because this looks good."

"That's what we're looking for... we're looking for something fresh."

"It looks like you put thought into it."

"They're not just throwing food they found in the package in the back somewhere."

**TO GO FRESH**

## EXCELLENT CARRYOUT PACKAGING

# INNOBOX EDGE™

- ◆ **SECURE CLOSURE:** Patented reverse lock secures food (US Patent No. D777,029)
- ◆ **STREAMLINED EATING:** Patented tear-away flaps improve the dining experience (US Patent No. D876,951)
- ◆ **LEAK PROTECTION:** Inner poly lining and inside corner folds create strong corners that protect against leaks
- ◆ **OPTIMIZED:** Case packs are optimized for shipping, storage, and handling
- ◆ **NESTED:** Cartons are nested for easy setup

-  Hot Food Friendly
-  Cold Food Friendly

## INNOBOX EDGE

**INNOBOX EDGE – KRAFT**        **CUSTOM MOQ: STARTS AT 50,000 PCS.**

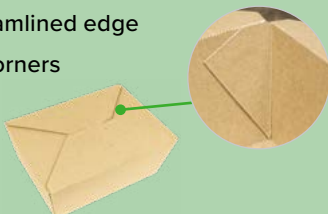

ITEM NUMBER	ITEM	SIZE	CAPACITY	MATERIAL & DESCRIPTION	CASE PACK
194830225	#1 INNOBOX EDGE	4.375" x 3.562" x 2.5"	22 fl. oz.	Kraft, PE Coated, Nested	180 (3/60)
197945346	#2 INNOBOX EDGE	7.75" x 5.5" x 1.875"	36 fl. oz.	Kraft, PE Coated, Nested	140 (2/70)
192738969	#3 INNOBOX EDGE	7.625" x 5.375" x 2.5"	56 fl. oz.	Kraft, PE Coated, Nested	130 (2/65)
192045724	#4 INNOBOX EDGE	7.75" x 5.5" x 3.5"	75 fl. oz.	Kraft, PE Coated, Nested	90 (2/45)
191368623	#8 INNOBOX EDGE	6" x 4.75" x 2.5"	29 fl. oz.	Kraft, PE Coated, Nested	130 (2/65)

## WHY CHOOSE THE INNOBOX EDGE?

### INNOBOX EDGE ADVANTAGE

Inside corner folds set the INNOBOX EDGE apart from other cartons.

- ◆ Creates a streamlined edge
- ◆ Strengthens corners
- ◆ Protects against leaks

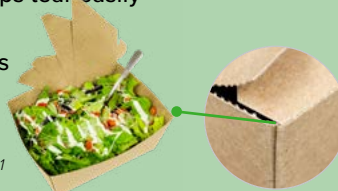

### TEAR-AWAY FLAPS

Turn the INNOBOX EDGE into a food tray in four easy tears.

- ◆ Perforated flaps tear easily
- ◆ Removing the flaps improves the customer experience

US Patent Nos. D876,951

### SECURE CLOSURE

The Reverse Lock Closure\* keeps the INNOBOX EDGE closed and prevents spills and messes when in transit.

US Patent Nos. D777,029

## HERE'S THE DIRT ON COMMERCIAL COMPOSTING

### GOOD FOR THE EARTH

According to the Biodegradable Products Institute, "composting is a natural process that turns organic materials into a valuable soil amendment."

Composting is vital to sustainability efforts. It diverts organic waste away from landfills and turns them into a product that can help the environment.

### BENEFITS OF COMPOST

- ◆ Improves soil and water quality
- ◆ Can improve crop yields
- ◆ Can replace chemical fertilizers
- ◆ Reduces methane emissions
- ◆ Helps aid reforestation, wetlands restoration, and habitat revitalization
- ◆ Provides carbon sequestration.

### TYPES OF COMPOSTING

Commercial composting facilities accelerate the breakdown of organic materials, like those in our commercially compostable packaging.

The two most common types of commercial composting today are windrow and Aerated Static Pile. A third method uses in-vessel, positive aeration, membrane laminate technology.
